HAFPHMANTION REPORT	25X1
COUNTRY Czechoslovakia	DATE DISTR. 1 October 1948
SUBJECT Replacement of Czech Population by German Settlers in Uranium Area	NO. OF PAGES 1 25X1A
PLACE ACQUIRED Return to CIA Library	NO. OF ENCLS 41822
DATE OF I	SUPPLEMENT TO REPORT NO. 25X1X

1. In the near future special documents will be required for entry to the uranium-mining area around Jachymov and censorship will be tightened up. A complete change of inhabitants in the area is planned, with the present population being replaced by 40,000 Germans by the end of June 1949. Recruiting has begun in the Russian Zone of Germany for this purpose, and the movement has already begun. Dr. Petracek, a physician at Jachymov who is serving as medical inspector of the volunteers, rakes frequent inspection trips across the border. German FW's working at Jachymov have been promised better pay and living conditions and permission to bring their families in if they will stay on after their formal release in December.
